Remote Site Reviews (RSR)

Remote Site Reviews (RSR) are VITA/TCE program oversight reviews conducted via phone, email, correspondence, or other virtual means. RSR are announced and will be completed at a time convenient for the coordinator in collaboration with the SPEC reviewer. The RSR can be conducted after site operating hours.

RSR allow SPEC to reach more partners and coordinators during the filing season. SPEC conducts RSR to measure adherence to Quality Site Requirements (QSR) and Volunteer Standards of Conduct (VSC). RSR are **NOT** audits. These reviews are opportunities for the local SPEC territory office to aid or offer guidance, identify, and share best practices, and strengthen adherence to the QSR and VSC. RSR are critical for SPEC to identify trending issues and monitor site operations. Prior to conducting the remote review, Tax Consultants (TC) will contact the coordinator to schedule the review for a time which is convenient for the partner or coordinator.

You should expect:

- The RSR to include the review of the VITA/TCE site operations only. There will be no return review done.
- An explanation of the purpose of the RSR.
- The Remote Site Review (RSR) will be planned and scheduled in advance. The review can be conducted outside of the site's operating hours. The reviewer will collaborate with you to reduce partner burden.
- A meeting confirmation email with contact information for the tax consultant conducting the review.
- A request for necessary information to review prior to the scheduled meeting, such as Form 13206 or similar document containing the same information, Forms 13615 and Form 15272 if not already available. Requesting this information during the planning stage may prevent delays in completing the review. The reviewer may also request additional information from the e-file coordinator and others as needed.
- The reviewer to contact the partner/coordinator at the date and time scheduled.
- The reviewer to complete Form 6729-D, VITA/TCE Site Review Sheet based on observations and site coordinator responses.
- Open-ended questions to encourage a discussion that provides a complete picture of the site's operational processes.
- A discussion of each VSC under QSR #5.
- Questions to ensure Civil Rights and VolTax information are posted in accordance with the QSR.
- A request for additional information if necessary.
- Feedback to be provided at the end of the review and the final results to be sent via email within 10 business days.

Field Site Visits (FSV)

Field Site Visits (FSV) are critical to the oversight of the VITA/TCE program and play an integral role in improving the quality of service provided at volunteer sites. SPEC conducts site and return reviews during FSV to measure adherence to the Quality Site Requirements (QSR) and Volunteer Standards of Conduct (VSC). FSV are **NOT** audits but assistance visits. FSV are generally unannounced and conducted when the site is open by your relationship manager (RM) or another tax consultant (TC) in the SPEC organization.

These visits are opportunities for the local SPEC territory office to aid or offer guidance, identify, and share best practices, and strengthen adherence to the QSR and VSC. FSV are critical for SPEC to identify trending issues and monitor site

Quality Statistical Sample (QSS) Reviews

Analysts assigned to the Quality Program Office (QPO) in SPEC headquarters will conduct Quality Statistical Sample (QSS) reviews. QSS reviews are generally unannounced unless prior notification is required to access the site. QSS reviews are critical to the success of the VITA/ TCE program and play an integral part in improving quality and consistent performance of sites. The review process validates accuracy of returns and measures adherence to all Quality Site Requirements (QSR) and Volunteer Standards of Conduct (VSC). QSS reviews are **NOT** audits. QSS reviews provide opportunities to identify and correct problem areas and/or share best practices.

SPEC works with Statistics of Income (SOI) office to decide the QSS review sample size before the start of the filing season. SOI selects the sites for QSS reviews based on criteria set by SPEC to ensure a valid accuracy measure for the VITA/TCE program. QSS reviews are unannounced, unless prior notification is required to access the site, and include a site review, and a minimum of three tax return reviews. QSS reviewers conduct a thorough review of the site's processes and operations for adherence to the QSR. SPEC uses results from QSS reviews to determine VITA/ TCE overall accuracy rates.
